

Thank you for your interest in this Timber Legality Risk Assessment

We are currently revising and updating this risk assessment, so it has been removed from the NEPCon Sourcing Hub.

We have removed it while we update it, because there have been some important changes to the legal system recently, which means the current version it not up to date.

The risks, which are summarised on the country page for Myanmar, are, to the best of our knowledge still applicable, but are also being reviewed.

If you would like to discuss the Timber Legality Risk Assessment for Myanmar, or you have questions about legality risks for Myanmar, please contact us sourcinghub@nepcon.org.

You can stay up to date with the Myanmar risk assessment, and all other NEPCon Sourcing Hub updates by subscribing to the newsletter here: <https://www.nepcon.org/sourcinghub/info/sign-updates-sourcing-hub>
